

Criative Coloring

with color genetics expert,
Andrew Merriwether, Ph.D.

Saturday, July 17, 2010

8:00 a.m. to 4:00 p.m.

Come to this seminar and learn the key genetic concepts to boost your breeding program and improve your outcomes. Learn how to choose breedings to increase the odds of making the colors you desire, and reduce the risk of making colors or patterns you want to avoid. You'll find out how to research your herd and your outside breedings to accelerate the improvement in your fleeces, and minimize the risk of inherited diseases. Understanding how camelids were domesticated, and how they are raised today in the Andes, to better understand how we should be caring for them in the US.

Register now, space is limited

Cost: \$40 per person by June 6th/\$45 late registration

Continental breakfast & lunch included

Sponsored By: Alpaca Crossroads

Seminar Location: Lazy G Alpaca Ranch, Fremont, Ohio
